CE Marking – CPD – Products EN 10210 & EN 10219

Dear Sir/Madam,

Corby Works and Hartlepool 20in Mill have a shared Quality Management System approval (ISO 9001, certificate number 0840080) and a shared CPD approval (EC Factory Production Control Certificate 0038/CPD/20070003/A). Details of the grades and maximum thicknesses that have been assessed in accordance with Annex ZA of the above mentioned product standards and that we are authorized to CE mark are shown on the Factory Production Control Certificate.

The notified body who issued our Factory Production Control Certificate is Lloyds Register Verification – 4 digit reference 0038.

The CE mark is only shown on the inspection document for products made at Corby and Hartlepool 20in mill. At the present time the CE mark is not shown on our product labels.

Some CPD products are dual certified with other product standards, the footnotes on our inspection documents state what product standards the CE mark may apply to.

Until such time as product standards EN 10210 and EN 10219 are revised to refer to the new Construction Product Regulations (CPR) our documentation will continue to refer to the Construction Products Directive (CPD).

Yours faithfully

A handwritten signature in black ink, appearing to read 'S.M. Jeffrey', with a horizontal line underneath.

S.M. Jeffrey
